

What is Renaissance Home Connect™?

Renaissance Home Connect™ is... Connecting Parents and Extending Practice

Renaissance Home Connect improves the school-to-home connection by allowing parents and students to log in to a website and view their student's reading and math practice and progress towards goals. Access to online results promotes discussion between parent and student, which motivates students and can make reading and math practice even more effective.

In addition, parents can specify up to six email addresses to receive automatic updates on their student's math and reading progress.

Renaissance Home Connect is accessible to all Accelerated Reader Enterprise, Accelerated Math Enterprise and MathFacts in a Flash customers.

Two steps are required to get Renaissance Home Connect up and running:

1. An administrator clicks the Set Up Renaissance Home Connect and Activate Schools links on the Renaissance Place home page and follows the instructions.
2. Once activated, teachers click the Informational Letter link on the Renaissance Place home page and print the letters to be sent home. If you are a teacher reading this, your administrator has already activated Renaissance Home Connect.

See What Your Students See For Reading

Information is shown only for products used in the student's classroom.

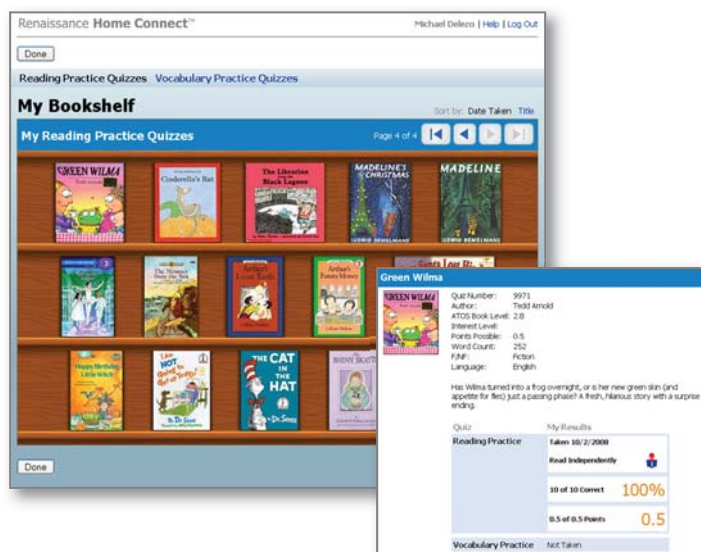

My Overall Progress

Renaissance Home Connect gives parents and students a snapshot of the student's reading progress, including average percent correct on quizzes, number of points earned, and ATOS book level.

My Bookshelf

Parents and students can see all the books the student has read. Clicking a book shows details about it such as book level, word count, points, and more.

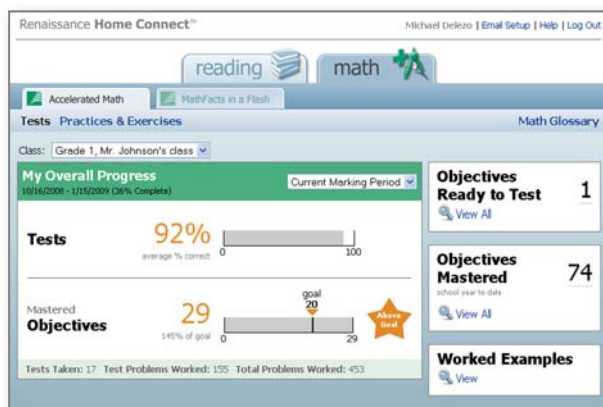

See What Your Students See For Math

Information is shown only for products used in the student's classroom.

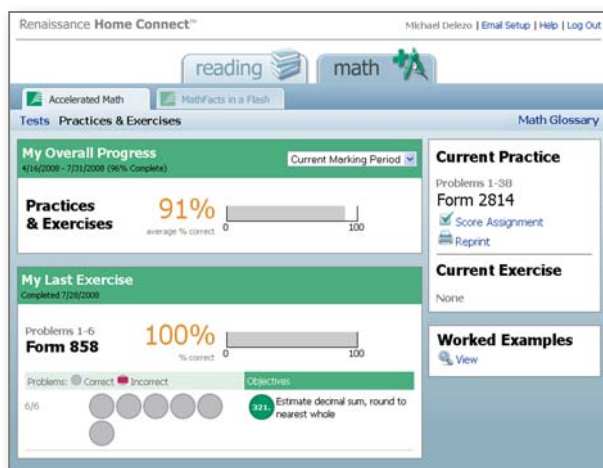

Tests

Renaissance Home Connect gives parents and students a snapshot of the student's math progress, including average percent correct on tests, number of math objectives mastered, and results of the last test.

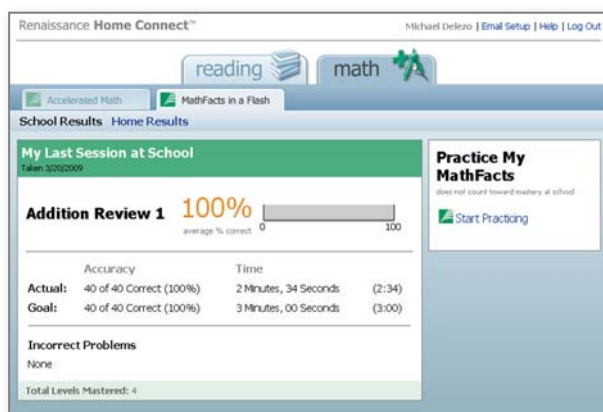

Practices and Exercises

- If you have the scoring preference turned on, students can score practices and exercises from home by filling in the electronic scan card just like they would a paper one.
- Students can reprint existing math assignments and exercises from home.
- Students can search or browse for math terms and see a definition and example for each.
- Sample problems for each objective are provided to help students with their homework.

MathFacts in a Flash

If students use MathFacts in a Flash, they can practice from home and parents and students can view their progress.

Connecting Parents Through Email

Parents can receive automatically generated emails about their student's progress in reading and math when they take an Accelerated Reader quiz or Accelerated Math test, or complete a MathFacts level.

The screenshot shows the Renaissance Home Connect "Email Setup" page. The user is Michael Delezo. The page has a "Done" button at the top left. The main section is titled "Email Setup" and "Share Results and Progress". It contains a form with the following fields:

- First Name: Joey's Mom
- Email: joeys_mom@joeyshome.com
- Retype Email: joeys_mom@joeyshome.com

There is an "Add" button next to the email fields. Below the form, a note states: "An invitation email will be sent to this person when you click Add. They will need to respond and accept before more emails will be sent." At the bottom, there is a link to contact the student's teacher for questions.
